Volume XLII OMAHA UNIVERSITY No. 22
OMAHA, NEBRASKA, FRIDAY, MARCH 23, 1962

2 Students Honored

See Picture Page 4

Two OU chemistry majors have received assistantships and fellowships to graduate schools. They are Tom Doherty and Bob Erickson.

Tom was awarded a graduate fellowship and assistantship as a lab instructor at the University of Illinois. The award is for \$2,000 and will last nine months. He was offered another fellowship from Kansas State but turned it down.

Tom is a varsity bowler and secretary of the team. He is also president of the OU chapter of the Student Affiliates of the American Chemical Society.

Tom has applied for "graduation with distinction" and wants

to be a college organic chemistry instructor.

Bob has won his teaching and research assistantship from Montana State University. The fellowship amounts to \$3,000 for the regular school term and \$700 for the summer.

Bob is vice-president of the SAACS and he also wants to be an instructor of organic chemistry on the college level.

Bob and Tom worked together this year on their senior chemistry project entitled, "Basic Theory and Research in Alpha-Lactum." The project has never been done before.

They were instructed in their research by Dr. C. E. Vendenzer of Nebraska U. and Dr. W. Listromberg of OU.

Physics Students Test Transistors After Irradiation

(See picture Page 4)

Rod Hiddleston and Walt Nodean have successfully made bad transistors out of good ones.

The two selected as their senior project the effect of irradiation on the efficiency of transistors.

Taking the PNP and NPN transistors, both commonly used in communication, they placed them in the reactor at Veterans Hospital.

The "hot" transistors were kept in a heavy lead canister, their electrical properties measured, and the results compared with properties before radiation.

John McMillan of the physics department said he has not heard of any similar research, and that if any has been performed it is likely to be classified.

Nodean said the results of the project could be a step toward future research in shielding transistors used in satellites which must pass through the highly radioactive atmospheric "Van Allen Belt," and in nuclear test site communications equipment.

The project was, as far as Associate Professor McMillan and the two students know, an original endeavor.

The work will be submitted to the Nebraska Academy of Science in April.

When asked if the experiment was a success, Nodean shrugged, pointing to one of the outwardly unchanged transistors dangling in an electrolytic solution. "It's just a worthless piece of junk, now, but that's what we wanted to find out. A single experiment is inconclusive, but it's a step to more research."

Debaters' Record Better Than Good

Omaha University debaters won sixty per cent of the debates entered in the Cross Examination Debate Tournament held here last week. Forensic Director Don Orban said winning fifty per cent is considered good.

OU's leading debaters, seniors Max Voight and Stan Zwerling won four of the five debates they entered and placed third in a field of twenty entrants.

Other winners were: Ron Bojanski and Bill Stillmuck; Arlene Grossman and Mary Evans; all with three wins. Larry Juul and Larry Hicks with two wins.

Ann Pence, entered in the interpretation division, won the semi-finals and placed third overall.

Mr. Orban said that the debate team had done "an exceptional job" and that they have shown much improvement."

Schmidt Awarded Star Scholarship

A \$250 scholarship has been awarded to Larry Schmidt by Star Radio Stations of which Omaha's KOIL is a member.

Larry, a senior, is majoring in radio and television and speech.

He is a member of Omicron Delta Kappa, senior men's honorary; of Theta Chi social fraternity, and is the past president of the Interfraternity Council.

Larry was vice president of his sophomore class, past staff member of the Gateway, and of the Student Center Planning Committee.

For the past several months he has been an announcer and newsmen for radio station KMEQ.

The contemporary communications scholarship will be used to pay tuition for the spring semester of 1962. The scholarship was presented by Steve Sheppard, vice president and general manager of radio station KOIL.

The Registrar's office has announced that early registration for Fall, 1962, has been changed to May 7-11. The dates for summer school registration for both sessions have been changed to June 7, 8 and 9.

Bonner Leaves OU To Pursue Politics

Dr. Thomas Bonner, professor of history and chairman of the social science department, has been granted an indefinite leave of absence from the University to campaign for public office.

He will attempt to win the Democratic party's nomination in the May 15 primary as its candidate for U.S. Representative from Nebraska's Second Congressional District in the general election to be held November 2. The seat is now held by Omahan Glenn Cunningham, a Republican, who is completing his third two-year term of office.

Making Second Try

Although he received over 5,000 write-in votes as an independent candidate for this same office during the last general election, Dr. Bonner, for health and financial reasons, had not planned to run again. However, improvement in his health and offers of financial support influenced him to change his mind, he said.

Dr. Bonner plans to campaign extensively for his party's nomination. His first partisan speech

was given Wednesday in the Student Center to the OU Young Democrats at their invitation. At that time he presented his basic campaign thesis: that Nebraska must have two strong political parties in order to ensure that individuals of the highest caliber are elected to all public offices. He also stressed the urgent necessity for a young

Tom Bonner

voters to lend their active support to qualified candidates, rather than allowing entrenched incumbents to remain in office through default to the votes of the older age groups.

Explains Obligations

At a farewell lecture to his social science class Monday, Dr. Bonner explained the reason for his decision to campaign actively for office. He said, "All people should have the courage to bear witness to their ideas, but that teachers in particular have an obligation to practice their democratic preachings."

Thus, since he was not satisfied with this district's current representation in Congress and believed he was qualified to improve upon it, he felt that he must do what he could to secure such an improvement.

It is believed that Dr. Bonner is the first regular member of the OU teaching faculty to run for public office.

Alumni Fund Still Growing

The initial donor portion of the tenth annual Alumni Fund Drive began March 6.

The second segment of the drive—three weeks of personal phone calls to alumni in Omaha and other major cities—began March 22.

Five division chairmen have been selected to head the coverage of the Omaha-area. They are Don Maseman, Lewis Radcliffe, John Jeter, Don Fjellin and Howard Olson. Working under each chairman will be six captains, and each captain will have six workers assigned to him.

The kickoff dinner for the division chairman and captains was March 22 at Kiewit Plaza. Speakers at the dinner included President Milo Bail; Don Fitch, alumni president; Joe Baker, Alumni Fund Drive chairman, and Betty Davis, alumni executive secretary.

The Alumni Association has prepared a 12-page booklet, "Today," in conjunction with the drive. This progress report is being mailed to leading citizens and alumni in Omaha.

Submit KWOU News One Day in Advance

Announcements of coming events or general departmental publicity can be broadcast over KWOU, the campus radio, Mr. Paul Borge said this week.

The station can be reached by calling extension 473 or by personally bringing the copy to room G-13 in the AA building.

The announcements should follow general journalistic style, answering the five w's (who, what, when, where and why) and should be submitted at least a day prior to desired publication.

Faculty Considers Future Problems

Some of the problems expected at Omaha University in years to come were discussed Monday by President Milo Bail and department heads in a weekly meeting.

If the same per cent of Omaha high school seniors keep coming to Omaha University as have in the past, Dr. Bail estimated an enrollment by 1967-68 of at least 6,000 students.

This would, Dr. Bail said, require at least 50 more teachers. Dr. E. Gale Oleson of the student counseling office cited as examples North, Central and Benson, from which 50 per cent of those going to college come to OU.

Looking ten years ahead, the group concluded that although students will still be of normal ability, a more complex technology will require different teaching methods.

The possibility of "programmed learning" through teaching machines was mentioned, as were study periods throughout the school day for students engaged in independent study.

Although the group's purpose is to discuss rather than to make specific decisions, all agreed that as OU grows, more and more use will be made of advanced students to lead discussions and assist in lab periods.

It was also suggested that classes of future freshmen may be split into morning and evening sessions.

Construction Projects To Begin on Campus

Several new construction projects will soon be started on the Omaha University campus.

First off, there will be "smoke screen" erected at the northwest end of the hall on the second floor of the Administration Building. This will amount to a partition with two doors in it extending across the hall. Its purpose is to eliminate the cold air from getting into the halls in this part of the building. Work will begin as soon as the job materials are available.

The second job will be the installation of the walk lights along the new sidewalks west of the Student Activities Building. The lights will be the same type as the others installed around the campus.

In the last few weeks work came to a standstill on the new addition to the Applied Arts Building, but electrical contractors were busy doing preliminary electrical work for the new wing in the basement of the present AA building.

Also, final plans are now being drawn for the new bowling alleys.

Official Notices

Rich Clayton and his "Rumblers" will play for the TGIF dance today from 3-5 p.m. in the Ouampi Room.

Tryouts will be held April 4 at 3:30 for the all-school Talent Show. Students are urged to sign up in the Dean of Students office by 4 p.m. on April 2.

All material for the spring issue of Grain of Sand must be turned in to Dr. Ralph Wardle today. The head of the English department said that short stories and essays under 2,000 words and poems under 40 lines will be given preference.

April 6 is the last day for filing applications for degrees to be conferred in June of 1962. Students must sign up in the Registrar's office and then pay a \$10 fee in the cashier's office.

Teachers Have History Meet

Today and tomorrow the Missouri Valley Conference of Collegiate Teachers of History will meet on Omaha University's campus.

University and college history teachers and students from the Midwest will attend. Approximately 100 are expected to participate in the conference.

Ten speakers from the Universities of Nebraska, Minnesota, Texas, Iowa State, North Dakota, Wyoming, South Dakota, Cincinnati, Delaware and Concordia College will speak to the group.

Four additional speakers will talk via Tele-Lecture.

Speaking from New York City will be Alexander K. Kerensky. Kerensky was the head of the provisional government in Russia until the Bolshevik Revolution.

Franklin D. Scott will be in Los Angeles. Scott is a history professor at Northwestern University.

Former Chancellor of Austria, Kurt Von Schuschnigg, will lecture from St. Louis, Mo.

Fitzroy McLean, a member of the British Parliament, will be speaking from New York.

Prof. A. Stanley Trickett, head of the history department, is in charge of the program.

Alice Smith Named As Alumnae of Year

Miss Alice Smith was announced as 1962 Alumnae of the Year at Sigma Kappa's annual State Day Banquet Sunday.

Miss Smith, who is registrar of the University of Omaha, was presented with an engraved silver tray.

The Gateway

The GATEWAY is published weekly by students of the Omaha University Department of Journalism. Editorial comment and signed letters to the editor are not necessarily representative opinions of the faculty, administration or student body.

Sculpture Adds Extra Dimension for Chiburis

See Picture Page 4

By Carl Schreiner

"Sculpture has permanence and gives me an extra dimension to work with," said Nick Chiburis, as his chisel began cutting into a block of marble that is beginning to take the form of a horse's head.

Nick is an art major in the College of Liberal Arts.

In sculpture you have a front, side and back view as compared to other forms of art which are two dimensional.

Nick says he prefers to cut or carve from stone, which is the true meaning of sculpture.

Carving and cutting is a painstaking and laborious procedure and progress is usually slow.

The operation consists of cutting away material until the desired form is exposed.

Nick said that he does not attempt to make a copy of some living form. Instead, he selects certain features for emphasis, combining them to achieve a pleasing form which suits the stone.

"I strive for simplicity, not a lot of fine detail," he emphasized.

The first step is to obtain the material. Quality stone is sometimes hard to find in the Midwest because of the geographical conditions. The stone is soft and difficult to work with.

"Next I get the idea, then sketch a front, side and back profile to fit the block of stone."

Four processes of cutting and finishing the stone to the desired form begin with the roughing cutting with heavy chisels, then refining with fine chisels. Next is smoothing with files and rasps. The last process is finishing with fine sandpaper and powdered acid.

While a student at South High, Nick won the Scholastic Art Award two years in succession.

At OU he lettered in wrestling his freshman year and is a member of the O Club.

Nick said he plans to follow up on art and sculpture when he graduates next year. He also plans to work on his Master of Fine Arts degree and teach on the college level.

OU, Academy Plan Exhibit

The Junior Academy of Science of Omaha University will jointly sponsor an exhibition in the OU Fieldhouse April 7 from 9 a.m. to 1 p.m.

Approximately 400 junior and senior high school students will exhibit more than 300 projects in the show. The students entered are from high schools within forty miles of Omaha.

All of the exhibits will be projects in math and science. About one-half of the projects will be submitted by junior high students.

The OU representative to the J.A.S. exhibition is Daniel Tredway of the elementary education department. Mr. Tredway also has recently been elected president of the Eastern Nebraska division of the J.A.S.

Press Conference Attendance Breaks Previous Records

A record breaking 225 participants from the Omaha and Council Bluffs area took part in the University of Omaha's 1961-62 high school journalism Press Conference Thursday.

The journalism department, Student Publications and the Press Club sponsored the event.

The conference was originally scheduled for the third floor of the Student Center, but the unexpected number of students made it necessary to hold it in the Conference Center.

Awards for material printed in the schools' papers were presented at a banquet last night. The banquet was held in the Cafeteria.

The 1961 Kodak High School Photo Award winning pictures were on display in the Conference Center Lounge.

Members of the staffs of the Tomahawk and Gateway conducted a panel discussion during the afternoon. They were: Linda Strnad, former Gateway editor; Karen Pope, Tomahawk editor; Bill Vogt, Gateway editor; Sue Kelley, Gateway reporter, and Gail Grove, former Gateway editor.

Tooling Conference Meets at Omaha U

The second annual Nebraska Tooling Conference will be held in the Conference Center tomorrow. Participants will be tool engineers, designers and manufacturers.

Featured speaker will be Stanley R. Cope, president of the Acme School of Die Design Engineering in South Bend, Indiana. He will discuss "Tool and Die Design" and "Tool Engineering in Japan and Its Effect on the United States Market."

Among other speakers are David A. Schrom, national vice president of the American Society of Tool and Manufacturing Engineers, and Robert Crosby, former governor of Nebraska.

The conference will be held from 8:30 until 3:30 p.m.

Monday's 'Cinema' Features Comedy

A German film, "The Captain from Kopenick," will be Monday's University Cinema presentation.

It is a comedy of the hoax of a poor cobbler, desperate to obtain a passport. The film has won awards from the San Francisco and Belgium Film Festivals.

It will be shown at 8 p.m. in the Conference Center Auditorium.

Civil Engineering Degree Soon to Be Added at OU

Plans were announced last week by President Milo Bail for the expansion of the engineering department. The expansion will come in the form of a degree in Civil Engineering. A total of 145 credit hours will be required for the degree.

At the present time, Omaha University students desiring such a degree may take the first two or three years here and then go somewhere else to finish up their requirements.

Dr. Bail said that the new degree would in part fill Omaha's demand for more civil engineers and at the same time those graduating with the degree would be eligible for full membership in professional organizations.

Sylvester Williams, head of the engineering department, said, "right now we are teaching all those basic required courses for the degree, but we are unable to teach the lab courses required." This involves about 9 or 10 credit hours.

He added, "with the complet

tion of the new addition to the Applied Arts Building we will be able to teach the courses we now lack. Basically, these courses deal with the testing of material for building like concrete, earth and the structure of steel."

Along with the addition of a new degree will come the addition of one of two full time and possibly one part time instructor to the engineering department. This will make the department the largest it has ever been at the University.

Mr. Williams said, "the need for civil engineers is growing every day and will continue to increase in the future. This being due to our ever-increasing population."

Civil engineers are those men responsible for today's modern transportation systems which includes the layout and building of roads and airports. Another big demand for C.E. comes from cities who need their services to design sanitary sewage disposal systems.

Physical Health Convention Will Draw Many from OU

The Central District Association for Health, Physical Education and Recreation is holding its annual convention March 21-24 in Omaha's Sheraton-Fontenelle Hotel.

The convention is expected to attract 750-1,000 members engaged in such diverse activities as driver safety education, physical therapy, city and YMCA recreation direction, state health and safety supervision, and teaching at all levels from kindergarten through college in nine mid-western states. Attending from OU is a large group of faculty members and students who are conducting or attending classes in related areas.

Two days will be devoted to coverage of matters of general interest to the entire group, after which the convention will be divided into discussion sections concerned with particular aspects of the overall program. Assistant

professors of men's physical education, Russell Gorman and Ernest Gorr will act as chairman of the therapeutics section and supervisor of the college student section, respectively. Sharon Irwin, vice president of both the Women's Recreation Association and the Women's Physical Education Majors and Minors Club at OU, will be co-chairman of the college student section.

Physical education instructors Linda Dooley and Bert Kurth are assisting the Omaha public schools in hosting the event.

Milkin Contributions Next 'Legacy' Topic

The contributions of R. A. Milikan, Nobel prize winner, will be discussed by Prof. John McMillan, head of the physics department, at the March 29 Legacy of Man.

Special emphasis will be given to the photoelectric effect and cosmic rays.

The discussion will be broadcast by station KQAL-FM at 9:30 p.m. Program moderator for the series is Prof. Paul Borge of the speech department.

Gorman Attends NCA in Chicago

Dean Frank Gorman of the College of Education is scheduled to attend the annual meeting of the North Central Association in Chicago on March 27.

Dean Gorman is chairman of the Association's Committee on Teacher Education in Multi-purpose Schools. He will report to the association on the committee's activities during the past year and its plans for the future.

The North Central Association is responsible for the accreditation of most secondary schools and institutions of higher education in 17 northern and midwestern states.

Grass Shack Ticket Office Opens Monday

Advanced ticket sales for the 11th Annual Military Ball will start Monday and continue until April 6, the night of the ball.

Tickets will be on sale from 7:30 a.m. until 3:30 p.m. They may be purchased at the booth on the first floor in the Administration Building, and in a grass shack, typifying the Polynesian theme of the ball, located in the Student Center.

Cost of the tickets is one dollar a couple, and they will also be sold at the door the night of the ball.

Dr. Wilfred Payne Pioneer Tele-Lectures Enjoy Shades of Success

By Fran Campbell

Remarkable!

This is the one word which best describes Dr. Wilfred Payne, chairman of the humanities department at Omaha University.

Dr. Payne is remarkable because he has never failed to amaze students and faculty with his many accomplishments and his seemingly unexhaustive reserve of energy and ideas.

Dr. Payne has been at OU since it opened its doors as a municipal university in 1931.

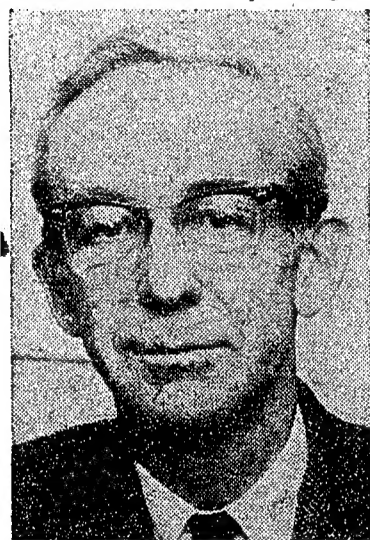

He is not only the chairman of the humanities department—he is also the founder.

Courses Unique

His philosophy and humanities courses—like Dr. Payne himself—are unique.

Dr. Payne doesn't use textbooks. His students read the original source of what is being studied. Dr. Payne originated this idea of teaching because he wanted his students to "inherit tradition, not what someone else says about it."

Dr. Payne is a pioneer. His motto is advancement. Therefore his courses are constructed and adapted for OU students. Two of the courses which he is currently teaching were originated not more than five years ago.

Dr. Wilfred Payne

Divisional Method

Dr. Payne is also responsible for the divisional method of teaching humanities used at OU. He adopted this method while it was still in its infant stages. OU was the fourth university in the United States to use this method. The humanities department is the only department on campus using this method.

Dr. Payne explained that he adopted this method because it "allows the material presented by a course to be integrated into a whole." In humanities the painting, architecture, literature, philosophy and music of a society are presented to give students an overall picture of the society.

Individual Instruction

Still another unique aspect of the humanities course are the tutors. Each humanities student meets weekly with a tutor for a private one-hour session.

The humanities department is the only one on campus which offers individual instruction. This too, was one of Dr. Payne's ideas.

Although Dr. Payne no longer tutors, he smiled as he recalled the days when he tutored students beside the fireplace in the old building.

Never Uses Notes

Another remarkable facet of Dr. Payne is his complete mastery of his field. He never uses notes for lecturing.

And indeed Dr. Payne does digress! He is acquainted with many famous personalities and when the name of one of these persons arises in class, Dr. Payne often finds himself telling the students what this person "is really like."

Students also remember Dr. Payne for his humor, although a student once said: "Payne's jokes just don't take—they're too complicated."

First on TV

Dr. Payne was a pioneer in the field of TV Classroom. In 1951

he was "the first man West of the Rockies" to teach a college credit class on television. Dr. Payne admitted that he was jittery until he reminded himself that "I'm doing what I've always done, except now I can't see my audience."

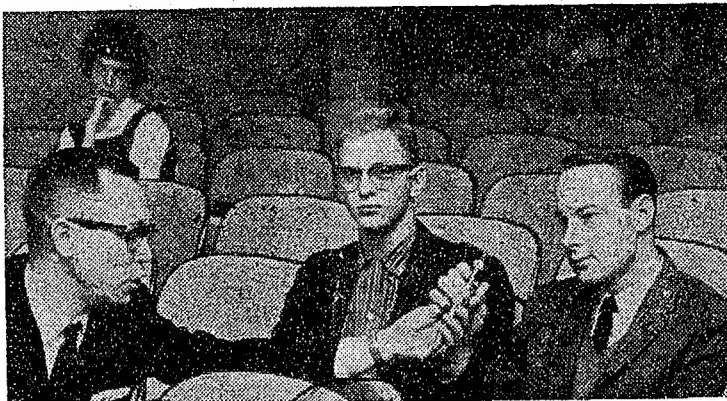

Even though he is small in stature, Dr. Payne is strong in the impact he leaves on those who know him.

Teacher of Professors

A faculty member, Prof. John G. McMillan, head of the physics department, said that Dr. Payne is "a teacher of professors in a very nice way."

McMillan also said that he likes to eat lunch with Dr. Payne because "lunch with Payne is always interesting, since Payne never fails to give food for thought."

In spite of his many accomplishments, Dr. Payne has maintained an air of humbleness so that as students and faculty see him, they cannot help thinking "there indeed is a remarkable man."

Paul V. Peterson, head of OU journalism department, hands microphone to Mike Dugan during Tele-Lecture with Pierre Salinger who spoke from Washington, D. C.

The Tele-Lecture series is taking on shades of success.

This week the journalism department had the opportunity to talk with two individuals who have been successful in the field of mass communications.

The first program, which took place Monday, was with Pierre Salinger, the presidential press secretary.

Mr. Salinger spoke to both Stevens College in Missouri and Omaha University.

Paul V. Peterson, director of the journalism department at OU, monitored the Omaha connection.

The second Tele-Lecture was with Floyd Kalber, a former Omaha television newscaster, now an NBC network newscaster.

Omaha University was the only school to participate in the Kalber Tele-Lecture.

Mr. Kalber freely discussed his career as a newscaster and created an environment of informality that took over the entire program.

Robert McGranahan monitored the Omaha connection for Mr. Kalber's lecture.

The Tele-Lecture is based primarily on the questions that the student asks first. This arrangement helps the student inform himself.

Another advantage of the Tele-Lecture is that it gives the student an opportunity to discover the personality of the speaker and form a more solidly based opinion of the individual.

The journalism department feels that the two programs were very successful and tentative schedules are being arranged for several more within the near future.

Among those being scheduled are Mark Ethridge of the Louisville Courier-Journal and Herbert Brucher of the Hartford Current.

Girl Watcher's Guide

Presented by Pall Mall Famous Cigarettes

LESSON 4 - Why men watch girls

Men watch girls for various reasons. Personally, we need no better reason than the reason men climb mountains. *They are there.* We have heard old men say they watch girls because it makes them feel younger and young men because it makes them feel older (see above). While investigating the reasons why men watch girls we picked up a clue from, of all things, a bird watcher. He told us

that he formerly had been a flower watcher. Then one day a Speckle-Breasted Jackdaw happened to land in his garden as he was watching a calla lily and he noticed that the bird *moved*. He switched to birds on the spot. Girl watchers have discovered that girls enjoy this same advantage (movement) over calla lilies. (Speaking of advantages, how about Pall Mall's natural mildness!)

WHY BE AN AMATEUR? JOIN THE AMERICAN SOCIETY OF GIRL WATCHERS NOW!

FREE MEMBERSHIP CARD. Visit the editorial office of this publication for a free membership card in the world's only society devoted to discreet, but relentless, girl watching. Constitution of the society on reverse side of card.

**Pall Mall's
natural mildness
is so good
to your taste!**

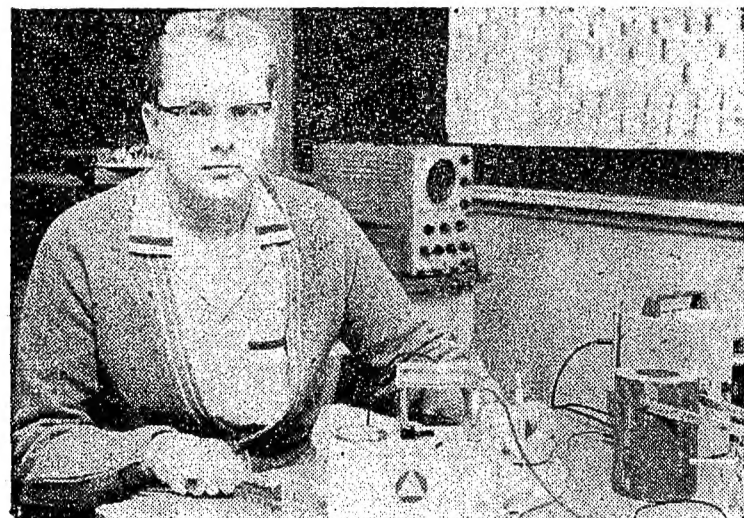

**So smooth, so satisfying,
so downright smokeable!**

Nick Chiburis shows his Madonna and horse sculpture projects, which originated as rough drawings.

Jana Doxon (pictured above) was warmly applauded after her rendition of "I Could Have Danced All Night" in Wednesdays Band concert. Band director Jack Malik (pictured at left) led the group through numbers from "Gypsy," "South Pacific," "Camelot," "Gigi," and "My Fair Lady."

Walt Nodden measures a radioactive transistor (see story on Page 1, Column 1).

Churchill to Speak At University Nights

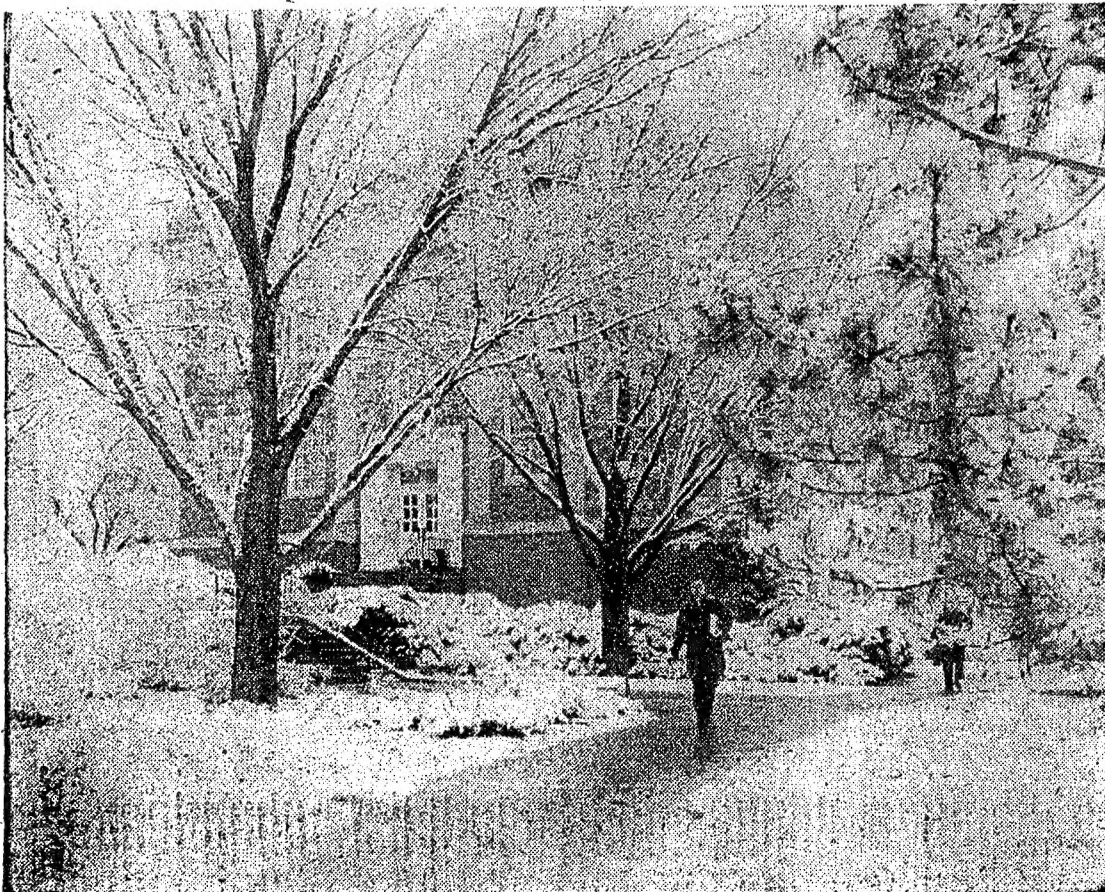

John Spencer Churchill, nephew of Sir Churchill, will discuss "Bluebloods and Redskins—We Churchills" for the University Nights audience tonight.

His recent series of articles, "We Churchills," was published by the Omaha World-Herald. His book, "A Churchill Canvas," was published here in the fall of 1961.

Goodby . . . and we wouldn't care if it was forever.

Why did it have to be the Dell?

Part-Time Workers Help OU Function Properly, Earn at Same Time

Jobs Filled

By Jim Shuttleworth

It takes more than a faculty and full-time staff to make this university function properly.

Many important services are also performed by a large group of part-time student assistants who work in almost every department and office on the campus.

Last semester 235 students—112 men and 123 women—were employed either permanently or temporarily in the following positions: graphic artist, general office clerk, building maintenance, sales clerk, cashier, accounting clerk, food service maintenance and grader-reader.

Job Files Maintained

Student assistants were also assigned these duties: library clerk, audio-visual projectionist, writer-reporter, locker room assistant, PBX operator, laboratory attendant or assistant, typist, stenographer and student activities assistant.

Mrs. Yvonne Harsh, director of student placement, said the Student Placement Office is responsible for coordination between the various departments and students seeking employment.

The office maintains a file of job openings and applications and attempts to match student capabilities with position requirements when vacancies occur.

Employer Has Final Say

Final determination of an applicant's suitability for a position rests with the head of the employing department, however, she added.

In cases where departments request that other individuals be hired, the Student Placement Office ascertains that the applicants are students in good standing, that they are not on probation and that they are enrolled in at least 12 semester hours—the minimum standard for all employment of this type.

Less Travel

Salaries range from 75 cents to \$1.35 an hour, depending upon the type of assignment and an individual's experience.

Mrs. Harsh said that although these stipends average slightly lower than for comparable work in private industry, a student is saved the trouble and expense of travelling to and from another location.

He can also more easily arrange his work schedule to conform to his class schedule than is usually the case when jobs are held elsewhere.

Melanie Jeub, newly appointed Tomahawk editor.

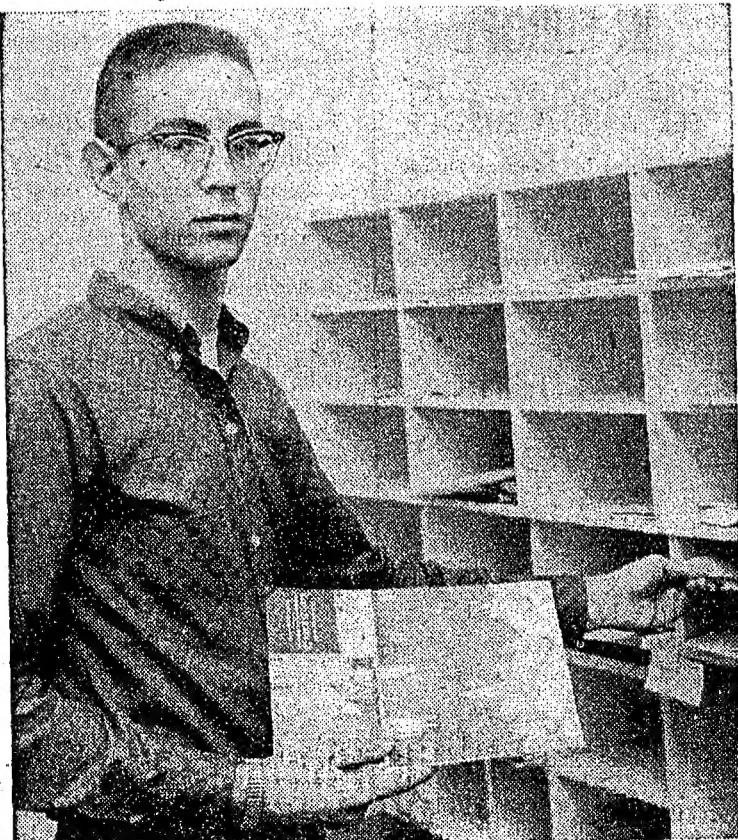

Jim Doescher works 17 hours in PBX as a telephone operator.

Betty Seibert works 12 hours in registration office.

Darlene Utterbach assistant to Mrs. Rowland in the traffic department.

Bill Tarr sorts and delivers mail five hours a week.

Jo Felton and Mary Carlson help out as assistant librarians.

Alpha Xi's Initiate 25 New Actives

Alpha Xi Delta sorority initiated 25 pledges in ceremonies:

New initiates are: Linda Anderson, Carol Bachus, Virginia Bohaty, Ann Bonanno, Leann Borchman, Kathy Clark, Sue Collins, Sandy Croft, Shirley Donaly, Gail Enquist and Marie Engelhart.

Other new initiates are: Marlene Hall, Sandy Holben, Christie Jensen, Karen Jensen, Judy Jones, Julenn Lefgren, Claudia May, Nancy Rolle, Jackie Schultz, Margie Scott, Diane Shannon, Diana Wagner, Kathy Welniak and Shari Zagor.

The Alpha Xi Delta Mothers Club was in charge of the reception.

SPEAKEASIES

Speakeasies will be held Mondays and Tuesdays at 12:30 p.m. in the Student Center Cafeteria, Alcoves C and D.

'Honey' Highlight Of Dinner Dance

The highlight of the Honey Bee Ball, the annual Sigma Kappa dinner dance, will be the announcement of Sigma's Honey during intermission.

Bob Nelson of Theta Chi was the Sigma's Honey last year.

The March 31st dance from 7 p.m. to midnight at the Omaha Athletic Club will feature the Chuck Halda Combo.

Sponsors are Mr. and Mrs. Harley Danielson, Mr. and Mrs. Charles Bull and Mr. and Mrs. Giles.

Art Club to Meet, Plan Activities

The next meeting of the Art Club will be Wednesday at 4:30 p.m. in the Administration Building.

The club will make plans for the next art show at Joslyn Museum in April and the art auction in May.

Top Greeks Lauded at Banquet

Outstanding Greeks were honored at the Greek Banquet last Friday.

Shari Zagor, Alpha Xi Delta, and Chuck Saxton, Pi Kappa Alpha, were named outstanding pledges.

Top scholastic average went to Mrs. Joyce Peterson Cramer, Chi Omega, and to Kent McCallum, Pi Kappa Alpha.

Sorority pledges honored for 4.0 averages were Susie Krogh, Janet Kroger, Judy Eichorn and Deanne Brezacek. The girls are members of Chi Omega.

Jack Mielke topped male pledges with a 3.68. Jack is a member of Lambda Chi Alpha.

Chi Omega and Sigma Phi Epsilon took honors for having the highest group academic averages.

Tau Kappa Epsilon won the golf, outdoor track and volleyball trophies.

Sigma Phi Epsilon received the Sports Sweepstakes trophy from Mr. Kurth, intramural director.

Swimming, softball and indoor track trophies were presented to Pi Kappa Alpha.

The bowling trophy went to Theta Chi.

Guitar-Playing Folk Singer Here April 4

Folk singer Win Stracke, who wears a guitar like a third arm, will be featured April 4 in the second of Omaha University's current series on American Heritage.

Stracke, who is sometimes billed as "Chicago's Minstrel," will appear at a lecture-concert slated for 8 p.m. in the Administration Building auditorium. Admission is free.

The Chicago Sun-Times has called the folk singer "a master in the art of story telling in song."

Stracke launched his radio career at a Chicago station in 1931 and has since appeared on various top-rated network radio and television programs.

Alpha Xi's Name Hornish President

Sue Hornish has been elected president of Alpha Xi Delta sorority.

Her new executive council is: Merrily McCann, social chairman; Beth Nelson, pledge trainer; Nancy Lindell, recording secretary; Sharon Johnson, corresponding secretary; Nancy Kautz, treasurer, and Dotti Mott, rush chairman.

Chi O Honors Knights

Chi O Knights, standing, left to right: Vince Kotlar, Bruce Olson, Lynne Jeffries. Seated, left to right: Bob Emmons, John Hofschire, Paul Blazeovich.

Chi Omega will honor their six "knights" at the 13th annual Shamrock Shuffle tonight from 9 p.m. to midnight.

Sheila Nelson, dressed in St. Patrick's Day attire, will escort the honorees who are John Hofschire, Lambda Chi Alpha; Bruce Olson, Pi Kappa Alpha; Vince Kotlar, Sigma Phi Epsilon; Lynn Jeffries, Tau Kappa Epsilon; Bob Emmons, Theta Chi and Paul Blazeovich, "O" Club.

The Carl Jay orchestra will play for the dance to be held in

the Student Center ballroom.

Mary Johnson, mistress of ceremonies, will announce the intermission program—presentation of the "knights" and vocal selections by Jana Doxon, Billie Poulson and Jo Poulson.

General chairman and assistant chairman of the dance are Phyllis Taylor and Sheri Humphrey. Other assistants include Mary Johnson, entertainment; Patty Baker, flowers; Shirley Johnson, publicity; Nancy McGee and Marcia Cathcart, display and Carol Thomsen, invitations.

Sponsors will be Capt. and Mrs. Joseph Davis, Dr. and Mrs. Aldrich Paul and Dr. and Mrs. Ralph Wardle.

Angels Interview 47 Candidates

Out of the 75 women who applied for membership in Angels Flight 47 women are being interviewed. Interview dates are March 20 and 27.

Interviews are being conducted by executive councils of Angels Flight and Arnold Air Society and AF-ROTC staff members.

The final number of women selected for Angels Flight is undetermined. The new Angels will be announced at the Military Ball, April 6.

This year the identities of the three honorary majors, two honorary lieutenant colonels and honorary colonel will remain a secret until the night of the Military Ball. This is the first year this has been done.

In the past only the identity of the honorary colonel was unknown.

Portraits will be presented to the honorary officers after the Ball.

Angels officers for the coming year will be presented this same evening.

Alpha Xi Delta Dumps Chi O's in WRA Play

Behind with a half-time score of 14-13, Alpha Xi Delta managed to squeeze out a 26-24 victory over Chi Omega last Thursday afternoon.

Unaffiliated took a forfeit from Sigma Kappa on Tuesday and Zeta Tau Alpha did the same from ISA on Wednesday. The last game of the Women's Recreation Association basketball schedule was played yesterday afternoon. The playoffs will probably begin next week.

IFC Elects Officers; McFarland President

The Omaha University Inter-Fraternity Council held election of new officers for the coming year Tuesday evening.

They are: president, Lyle McFarlin, Lambda Chi Alpha; vice-president, Lee Kalstrom, Theta Chi; secretary, Dudley Kersey, Pi Kappa Alpha, and treasurer, Ken Nelson, Tau Kappa Epsilon.

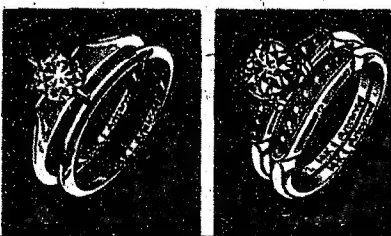

Fit for a Queen

Meet regal Pat Weaver, America's National College Queen. She and her court of Regional College Queens chose ten beautiful rings from Artcarved's award-winning designs. Somewhere among them, or among other Artcarved traditional and modern designs, you will find the ring of your heart's desire.

Ask your Artcarved jeweler, listed below, to explain all the other reasons for choosing a beautiful Artcarved diamond—its 100-year quality reputation, superb color and cutting, plus the famous Artcarved Permanent Value Plan, the world's strongest proof of guaranteed diamond value. Learn why you'll be prouder with an Artcarved.

British People Appreciative . . . Gorr Team Leader for U. S. Track Delegation in London

By Arlo Grafton

What is the response to American athletes in England? "Tremendous" was the word used by University of Omaha Coach Ernie Gorr to describe the feeling of the British people toward four of the top track men from the United States.

Mr. Gorr has just returned from London, England where he was the team leader for the four-man track team that competed against five other countries last weekend. The countries were: Finland, France, Great Britain, Eire, Poland, and the U. S.

The purpose of the meet was to acquaint the British people with how indoor track meets are held.

The meet was the first of its kind since before World War II and opened the new indoor track in the Empire Pool and Sports Arena at Wembley, which is just outside of London.

The twelve lap track was laid out over an ice rink which according to Coach Gorr compared to the Ak-Sar-Ben Coliseum in size. It holds around eight thousand people.

Two Complete Meets

The meet was divided into two sessions with a complete track meet held each day.

The four athletes from the United States won all the events in which they competed, with three breaking United Kingdom records.

Gary Gubner, who holds the world's shot put record, broke the United Kingdom National and All-Comers record and also broke the European record with a heave of 64 ft. 1 in. and topped the records again in the second with a 62 ft. 5 1/2 in. put. His world record is 64 ft. 11 1/2 in.

Gorr

Bill Johnson broke the United Kingdom National record and tied the All-Comers records in the 60 yard hurdles with a time of 7.5 seconds. His times were identical both days.

Cary Weiseiger broke the United Kingdom National record in the 1,000 yard run with a time of 2:13.3 on Saturday. He won the mile run on Friday with a time of 4:13.3.

Paul Winder was one-tenth of a second off the United Kingdom All-Comers record with a .64 clocking in the 60 yard dash. His times were also identical both days.

No team standings were kept since this was mainly a display of how an indoor track meet is run.

There were the main indoor events for men and events for women. The women that competed were from the United Kingdom. There were also events in the junior division.

The meet was televised both days and drew wide acclaim from the British press.

Athletes Well Received

Coach Gorr said that American athletes received tremendous ovations for their efforts and were continually swamped for autographs by the British younger set. Mr. Gorr himself was stopped many times and asked for an autograph.

Coach Gorr said, "People of England are very appreciative of good performances." He also added, "This should be a big boost for the development of track in Great Britain."

In describing the present track set up in Great Britain, Coach Gorr made mention of the fact that it has only five national coaches that train all the British athletes and conditions so far have limited them in producing top track athletes.

He said however the enthusiasm is great for the sport, as was indicated by the crowds that attended the two day affair, and with improved conditions could soon become recognized in indoor track.

This enthusiasm extends down to the young boys in England. One little fellow came up to Coach Gorr and said he hoped that he would be able to compete against the United States when he grows up. They look to the U.S. as the leaders.

Several notable British people at the events including a representative of the Queen and the Marquiss of Exeter, who is the president of the Amateur Athletic Association, which organized the meet.

The event was sponsored by the London Daily Herald which described the new indoor track as the best investment yet for British athletes.

Crenshaw Elevates OU Wrestlers to Seventh Place Tie

With the help of George Crenshaw, OU finished in a tie for seventh place with Fort Hays, Kan., and Graceland, Iowa, in the National Association of Intercollegiate Athletics Wrestling Tournament last weekend at Winona, Minn.

Crenshaw won his first two matches by pins over Dave Am-dahl of Luther College in the opening round and John Henry of Moorhead State in the quarter-finals. Losing 5-3 in the championship match he finished as runner-up in the 157-pound division to Walt Kottmeyer of Millersville, Pa.

John DeGeorge and Mel Masek won consolation titles by winning two and losing one each.

Louie Miloni, 130 pounds, expected to finish high in the standings, was pinned by Albert Schwietzer of West Chester in 2:40 of his first round match. Heavyweight, Art Ferguson, another Indian hopeful, was decided by Jim Herman of Stevens Point, 5-0.

Omaha finished the tournament with a total of 17 points while the winner, Bloomsburg, Pa., collected 56.

OU Baseball Boss Releases 24-Game Diamond Schedule

Omaha University Baseball Coach Virgil Yelkin has released a 24-game Indian baseball schedule that will include 15 home games.

The Indian baseballers will open the 1962 season with eight straight home games with the opening contest scheduled against South Dakota University in a nine-inning contest Saturday, March 31. Yelkin told his squad that the opener may have to be moved back a few days depending on the condition of the University diamond.

An addition to the OU slate this year is the Sunflower Easter Tournament at Emporia during Easter vacation April 19 and 20. Other schools in the tourney are the host Emporia State, Emporia College and Dubuque University of Dubuque, Iowa. Dubuque replaces Rockhurst of Kansas City who was originally scheduled to compete in the tourney. Each team will play two nine-inning games.

The Indians will open title defenses in the Central Intercollegiate Conference and the Kansas-Missouri-Nebraska League against Washburn University at Topeka April 28. All league and non-conference encounters will consist of two seven-inning contests.

The Indians will play eight games in each loop. Making up the CIC schedule are Emporia State, Pittsburg, St. Benedict's, Washburn and OU.

This is Pittsburg's first year in the CIC baseball race since OU joined the loop during the 1958-59 school year.

The schedule:

March 31, South Dakota University.

April 6, South Dakota State; 7, South Dakota State; 10, St. Cloud (2); 13, Drake; 17, Morningside (2); 19-20, Sunflower Easter Tournament at Emporia; 28, at Washburn (2).

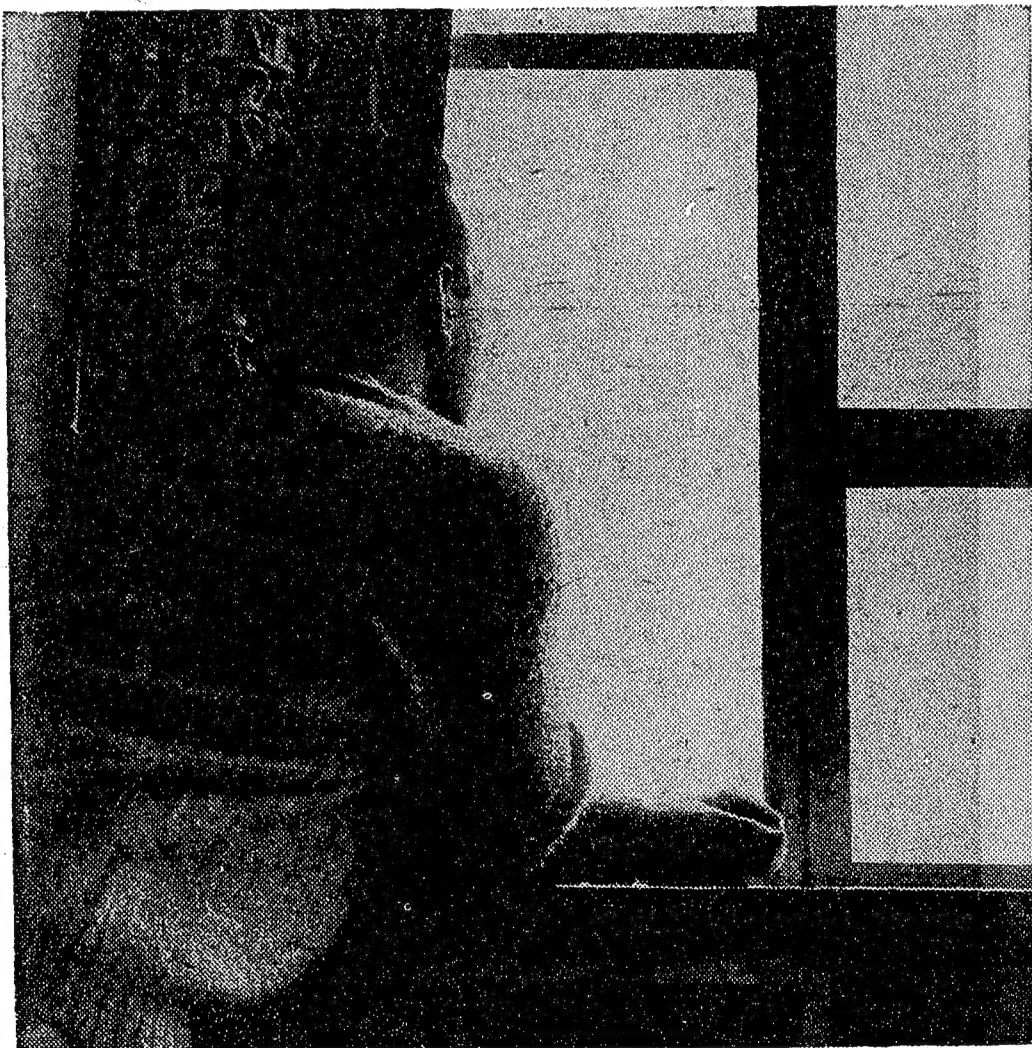

May 1, at Creighton; 5, at Emporia (2); 8, Nebraska Wesleyan (2); 12, St. Benedict's (2); 15, Rockhurst (2); 19, at Pittsburg (2); 22, Creighton.

TENNIS

All those wishing to play tennis this spring should attend a meeting in Coach Ernie Gorr's office Monday afternoon.

The meeting is scheduled for 3 p.m. in Room 111 of the Applied Arts Building.

Those who attended the first meeting and anyone else interested in playing tennis should attend this meeting.

How would you forecast your next few years?

Today, the young man planning his life realizes as never before that in today's world his own future is tied inevitably to America's future. How can he serve both?

Many college graduates, both men and women, are finding a rewarding answer on the Aerospace Team — as officers in the U.S. Air Force. Here is a career that is compelling in its challenge and opportunity. And it is a way of life

that holds the unsurpassed satisfactions that come with service to country.

As a college student, how can you become an Air Force Officer?

If you have not completed Air Force ROTC, Officer Training School provides an opportunity to qualify for a variety of vitally needed jobs in the Aerospace Age. A graduate of this three-month course earns a commission as a second lieutenant. Also open to college men is the Navigator Training program.

For full information — including the chance to obtain graduate degrees at Air Force expense — see the Air Force Selection Team when it visits your college. Or write: Officer Career Information, Dept. SC23, Box 805, New York 1, N. Y.

In Intramurals . . . Crew and Fijis Still Locked In Bowling; Tourney Set Up

The Crew and the Fijis still are locked in a dual for first place in intramural bowling.

Both teams top the league with 56 points with the Crew holding the edge in total pins.

Tri Chi in taking three points from the Pi Kaps moved in to third place. The Kaps dropped a peg to fourth position.

Tri Cji in taking three points from the Kaps moved into tie with the Pi Kaps for third place. Tri Cji again holds an edge in total pin count.

The Lams dropped to fifth place.

High team honors for the afternoon went to Lambda Chi (2) who posted a 734 game and a 2044 series.

Individual game honors went to John Gomez with a 224.

Ol Whittaker had the high individual series with a 601.

Match Game Bowling

The roll-off for the 1962 National Collegiate Individual Match Game Championship will be held at the West Lanes on Friday afternoon March 30 at 1 p.m.

The top two will be given an expense paid trip to Chicago to roll in the national tournament in April.

Entry fee is \$2.85 per person for the eight games.

The deadline for entering the tourney is March 29 at noon.

Letterman, Transfers Lead OU Golf Squad

One senior letterman and two transfers form the nucleus of coach Ken Fischer's OU golf squad.

The veteran is John C. Gaffney who was a starter on last year's Indian team which posted a 9-4 record.

The newcomers are Ernest Meeker of Pontiac, Mich., and Roland Knowles of Omaha. Both are experienced linksmen.

The OU team opens the 12-match schedule April 9 against Nebraska Wesleyan in Omaha.

All home matches will be played at Miracle Hills golf course.

Safety is a full-time job.

She Checks Personally

Why? Because she belongs to that bright and lively crowd that likes to know what's going on. She enjoys being "in the know"—whether it's about the latest fashions or her best friend's newest flame. She enjoys the new, the modern and the convenient, too. That's why she checks personally with the U. S. National Bank. With her personal checking account, it's easy for her to pay

bills, buy a new hat or even take that long-planned vacation trip. Her cancelled check is her receipt, so her budget stays balanced and she's in the know about all her finances quickly and easily. Why don't you check personally, too. It takes only a moment to open an account at either of our locations—16th and Farnam or 20th and Douglas. NATIONAL BANK
